Experience

Merch Direct
Lead Full Stack Engineer   **June 2019 - April 2020**

- Lead developer for a Ruby on Rails multi-tenant e-commerce platform and an internal warehousing and fulfillment app
- Launched, themed and maintained several Shopify Plus stores that averaged $1 million in sales per day.
- Refactored fulfillment and shipping features to use better shipment methods contributing to a savings of up to 50% per package shipped
- Built a client contracting system to monitor client royalties, speeding up payment processes from days to minutes
- Refactored internal warehousing app to better maintain FIFO and LIFO inventory methodologies
- Refactored and debugged e-commerce app to better address and fix race conditions in the add to cart and purchase lifecycle
- Used Redis to cache data in order to speed up certain processes across all apps
- Added Google Analytics to e-commerce application to track customer habits
- Debugged and fixed any issues with non-working Google pixels
- Built a small Rails app using Rails 6 and Postgres to better analyze metrics from Shopify stores.
- Implemented RESTful web services using versioning and following TDD
- Performed Database Administration indexing tables where needed.
- Maintained integrations with several APIs including Stripe, Shopify and AWS
- Proactively identified risks and issues to create action plans and mitigate risks
- Main point of contact for outside vendors and consultants
- Managed all AWS services for in-house applications.

Full Stack Engineer   **March 2018 – June 2019**
- Built a design system using React to facilitate a consistent UI across all internal apps.
- Communicated and worked with stakeholders across company to delivery finished product to clients in a timely manner
- Translated look boards and design mockups into e-commerce sites for clients using HTML5(Liquid), CSS, JavaScript

MV Sport - *Lead Production Artist*   **April 2012 – March 2018**
- Provided technical leadership and mentoring to a 25 person Art Production Department.
- Ran cost analysis on updating equipment resulting in 95% decrease in production time and material cost
- Developed prepress art production processes, to improve process time by 80%
- Partnered with other departments to develop new business lines
